

LEADERSHIP TRANSITION

Data Sail - Spring 2026

CLUB STRUCTURE

PRESIDENT

Pol Monné

VICEPRESIDENT

Pau Casé

MANAGEMENT

Wesley Keever

GRADUATE SUPPORT

Ben escobar

REQUIREMENTS

- Present the club at the Student Engagement Fair (October)
- Host a weekly/biweekly meeting.
- You must organize at least one activity during the semester

SUGGESTIONS

You must organize at least one activity per semester

- Tour of Fermi National Accelerator Laboratory (Fermilab)
- Movie Night. Data Science and AI related
- Datathon

PROJECT GOALS

1. Engage the Lewis Community in the Data Science and AI world.
2. Help students in their learning journey.
3. Have fun with data!

RESOURCES

1. You can reserve a room on a recurrent basis on-campus to hold the meetings.
2. You will have a limited budget for the semester to order food and resources ($\approx$ 200\$).
3. You can request a shuttle service for the club members if you organize off-campus activities.

CONCLUSION

We hope you had fun learning and playing with data during this semester and hope you are as excited as we were to embark on leading and organizing this club and community.

DOES ANYONE HAVE ANY QUESTIONS?

Raise your hand, please

THANK YOU
